CURIOUS 2024

FUTURE INSIGHT CONFERENCE

CALL FOR ABSTRACTS

The Curious – Future Insight Conference – united by science for a better tomorrow is one of the world's most-renowned conferences on the future of science, technology, and innovation. It is a unique platform bringing together some of the brightest scientists and innovators, among them many Nobel laureates and CEOs, to solve the challenges of today and enable the dreams of a better tomorrow. The Curious Future Insight Conference is the place to meet the people that shape the global future of science & technology.

The event takes place next time **July 10-11th, 2024** in Mainz, Germany and online. A broad range of game changing topics will be covered including **health, life sciences, nutrition, material sciences, digitalization, AI, energy, mobility, space flight, robotics, secrets of the human mind, and new ways of working together.**

Dive into the exhilarating Curious2024 – Future Insight Conference and **submit your abstract for a chance to present** your research, share your innovative ideas, ignite meaningful conversations, and provide valuable content. Connect with fellow enthusiasts and expand your knowledge at the event by securing a complimentary ticket upon the acceptance of your abstract. Your submission could lead to a **short talk, a poster presentation, or a booth at the start-up fair.**

**Submission
deadline
31. March
2024**

nature awards the spinoff prize

in partnership with

The Nature Spinoff Prize aims to encourage and give visibility to academic entrepreneurs and their companies.

The judging panel will look for spinoffs that translate original, high-quality scientific research into products and services that address market problems and are well positioned to make a positive impact on society.

The Spinoff Prize will focus on spinoff companies founded on research in **life sciences** or **physical sciences**, both of which can include **digital technology approaches** i.e. **including artificial intelligence, deep learning, neuromorphic computing and quantum computing**. A shortlist will be profiled in an online special report published in Nature, alongside the list of the companies deemed the 'ones to watch'.

Shortlisted spinoffs will pitch to the slam panel at **Curious2024 – Future Insight Conference**, after which one winner will receive a **€30,000 cash prize**.

Spinoff companies from universities and other academic research institutions apply now for the 2024 prize

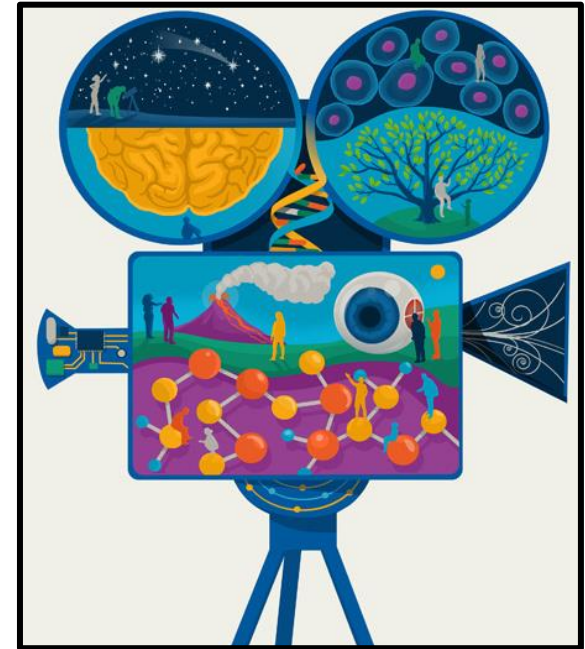

**Submission
deadline
31. December
2023**

nature awards science in shorts

in partnership with

MERCK

Research matters to everyone. But not everyone knows it. We want you to tell the world about your work, what you do and why it matters. And we want it to be approachable, engaging, and easy to digest.

- Tell the world about your research in a 1 minute video. What are you doing and why does it matter?
- Your audience is everyone, particularly non-scientists.
- Your goal is to inform, engage, and entertain.
- Be as creative as you like, as long the science is accurate.
- Express yourself and don't be afraid to show your personality.
- There's no need for specialist kit or sophisticated software. Videos can be shot on a smartphone.
- Every video that we agree is clear, accurate, and engaging will be added to the Science in Shorts library on nature.com.
- The winner video will be selected at **Curious2024 – Future Insight Conference** and receive a prize of **€5000** to each - up to 10 videos will be selected.
- The whole collection will be shared with the public, globally.
